

True Custom Order Form—Chest & Storage

True Custom allows you to modify a standard Chaddock design to meet your exact specifications. Most pieces can be customized for size, proportions, design details, and finishes.

All final documentation—including the acknowledgement and custom quote—must be reviewed and approved to ensure accuracy. While we strive to accommodate all requests, customization is not guaranteed. Any limitations will be communicated promptly for planning purposes.

PROCESS

1. Confirm your item is eligible for customization (see price list or True Custom icon on our website).
2. Complete this form and submit to quotes@chaddock.com, including your sales representative.
3. Attach detailed sketches or markups referencing the original product. Be specific—otherwise, standard options will be applied.

CUSTOMER ACKNOWLEDGEMENT

By paying a deposit, it is agreed that the order will be fulfilled as described and verified on the supplied acknowledgement and this form with the specified custom quote number. All orders are non-cancellable, and once placed, no changes can be made.

HARDWARE (SPECIFY STANDARD, NEST, OR CUSTOMER'S OWN BELOW)

STD. HARDWARE		STD. HARDWARE FINISH	
NEST HARDWARE		NEST HARDWARE FINISH	
CUSTOMER'S OWN		HARDWARE QUANTITY	

Select hardware options, including Nest, may require an upcharge.

DRAWER GLIDES

Custom-designed and custom-fitted. Most recent introductions and high-use Fig styles feature metal glides, with wood guides available where applicable. Longer drawers require heavy-duty glides. Soft-close is standard for Fig. Upcharges may apply in a range of circumstances. For details, please contact your customer service specialist.
